

Introduction: Why?

This is 2026 and no one is able to explain Germany's love for the Zionists and American lustful devotion for Zionism, to the extremum of creating a new religion called Christian Zionism, with President Joe Biden as one of its publicly announced disciples!

I came across a fantastic, astutely researched, short and credible explanation of the love affair of Nazi Germany with the then new kids on the block called the Zionists!

I do not have much to offer on this matter, except my ability to republish the detailed research in a more accessible fashion.

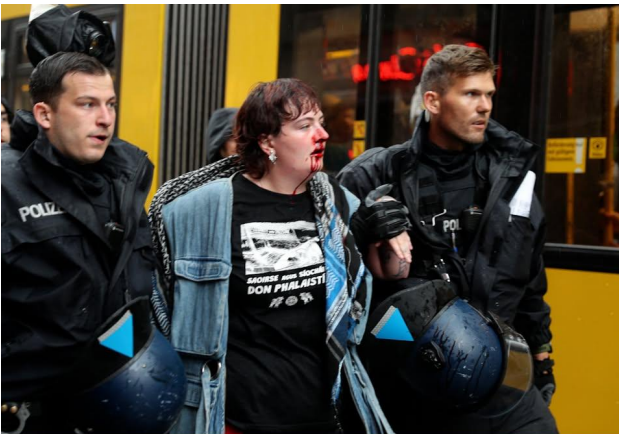

I can no longer sit on the side and watch the brutal German police maul the Pro-Palestinian demonstrators like wild vicious dogs with immense hate and absolute immunity!
